### Customer Statement of Understanding

I understand that Aquasport International will service the above equipment in accordance with the current EN250 Standards & manufacturers recommendations. I authorise Aquasport International to carry out those works which are necessary to meet the said standards up to a limit of £100.00 including parts & labour charges. Any additional costs are to be referred to me before commitment.

I understand that Aquasport International reserves the right not to service all or part of any equipment that it deems not suitable for use in which it is intended, does not meet the above standards or is in a dangerous state of repair. I also understand that there may still be a charge for the return of such equipment to cover any costs incurred by Aquasport International.

I agree to collect my equipment (or make further written agreement, including payments in full, with Aquasport International) within three months of submitting it for servicing. Should I fail to do this, I understand that the management of Aquasport International reserves the right to dispose of the equipment in any way they see fit.

When new parts have been fitted to the equipment the servicing is carried out in accordance with manufacturer's recommendations & standards. Should you require equipment to be tuned to your individual needs the performance may be affected. When used over time equipment may also lose the performance it had when originally serviced. Should you wish to have the equipment checked or should you be dissatisfied in any way with the work undertaken by our service centre, return the equipment within 28 days of collection/return & any necessary readjustments will be free of charge.

I have read and understood the above & agree to abide by the conditions outlined.

## FORM ASSISTANCE

---

<sup>1</sup> **We strongly recommend that you send your regulators via recorded mail, as proof of postage cannot be accepted as proof of delivery.**

<sup>2</sup> This serial can be found embossed into the metal of your first stage. If you cannot locate the number leave this field blank.

<sup>3</sup> This serial can be found on the mouthpiece or bottom of your regulator. If you cannot locate the number leave this field blank.

<sup>4</sup> This serial can be found on the mouthpiece or bottom of your octopus. If you cannot locate the number leave this field blank.

<sup>5</sup> Make and model

<sup>6</sup> BCD hose attached ?

<sup>7</sup> Drysuit Inflator hose attached?

<sup>8</sup> Anything specific that you would like us to look at during your service/repair/check ?

<sup>9</sup> Please enter your name

<sup>10</sup> Address where you would like us to return your regulators to. Return goods are sent by special delivery and require a signature, so return address may be you work address, but we still need your home address in order to process your credit/debit card payment.

<sup>11</sup> In order to protect your card details we will contact you via telephone once your service is complete to take your card details and payment (including return Postage & Packing) and let you know your regulators are ready. Please ensure you give us a number where we can contact you during business hours.

<sup>12</sup> You must agree to our terms of service before we can perform any work on your equipment
